Truck and Loading Dock Equipment

Not all schools have truck and loading dock equipment, but for the ones that do, it's important to make sure your equipment is safe and working efficiently.

At Barron Equipment & Overhead Doors, we carry only the very best truck and loading dock equipment on the market. Here are some of the most popular truck and loading dock equipment we provide at schools:

- Edge of Dock Levelers
- Dock Lifts
- Dock Plates & Bumpers

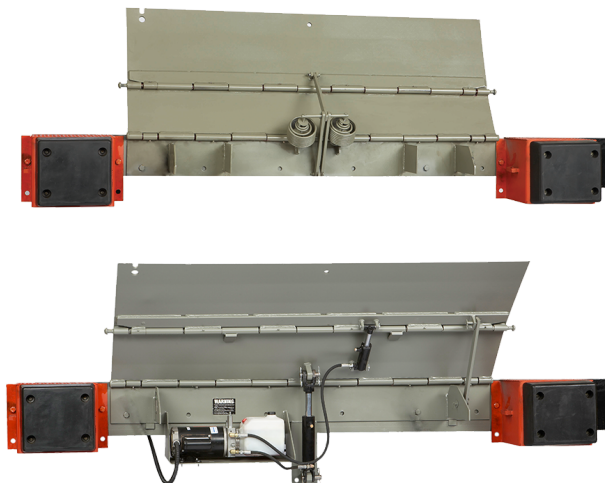

Although these are some of the most popular, we provide all types of dock levelers and accessories.

Dock Plates

Bumpers

Edge of Dock Levelers

Dock Lifts

For more information on our truck and loading dock equipment, email us at sales@barroneq.com or visit our website at www.barroneq.com.

Overhead Doors

Overhead Doors are common in any large building where materials need to be moved in and out. Not all overhead doors are accompanied with a loading dock. Either way, we sell and service them all!

The most common types of overhead doors we sell, install and service include: high speed doors, rolling steel doors, cold storage doors, and overhead sectional doors. At a school, we typically assist with rolling steel, cold storage and overhead sectional doors. Another thing to remember -- we can service any kind of door, even if it didn't come from us.

For more information on our overhead doors, email us at sales@barroneq.com or visit our website at www.barroneq.com.

Wire Equipment Cages

Wire cages are often used in an industrial setting to protect machines and other equipment. We've installed them in schools to ensure athletic equipment and other expensive items are kept safe. We carry a wide variety of wire products, not only for storage but also for security. They can also be used in a server room to protect electrical and other important IT related equipment.

In addition to wire products, we also can provide custom locks to make sure everything stays safe and secure.

For more information about our wire products, visit our website at barroneq.com or email us at sales@barroneq.com.

Casters

Casters are a set of wheels, free to swivel in any direction, fixed to the legs or base of a heavy piece of furniture so that it can be moved easily. Our Barron casters are designed to make your job easier and more efficient. Our casters are high quality and long-lasting and can withstand any kind of environment. We often see casters used in schools specifically in cafeterias, gymnasiums, libraries, storage rooms, and any where else that carts are commonly used. To see if our casters can make your job easier, schedule a complimentary caster survey today -- casters@barroneq.com.

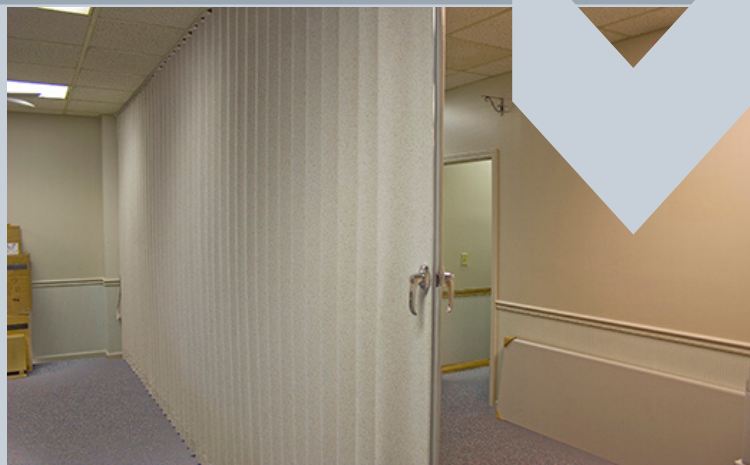

Wall Partitions

In a lot of school environments, getting space that works for everyone can be challenging! A lot of schools use our wall partitions to divide up big rooms into smaller rooms for different purposes. Our partition walls are easy to operate and we have several different options available (including operable walls and accordion partitions) to suit your needs. Give us a call or send us an email at sales@barroneq.com for more information.

Accordion Style
Wall Partitions

Counter Doors/Shutters

Commonly utilized in cafeterias, concession stands and ticket booths, our Rolling Counter Doors provide accessibility and security in interior and exterior finished wall openings. These doors are manufactured with smaller, more aesthetically pleasing door components – such as the guides, slats, brackets and hood – than traditional rolling doors, so they require minimal headroom and can be custom-fit into a wide variety of openings.

Perfect for
concession
stands,
cafeterias, ticket
booths, and
more!

For more information about our counter doors/shutters, visit our website at barroneq.com or email us at sales@barroneq.com.

Storage Solutions

Racking & shelving, storage cabinets, and lockers are just a few of the product types we carry for storage solutions. Custom options are available for every application! Give us a call or email us at sales@barroneq.com for more information.

Specialty Moving Equipment

Racking & shelving, storage cabinets, and lockers are just a few of the product types we carry for storage solutions. Custom options are available for every application! At Barron Equipment and Overhead Doors, we have a variety of carts, hand trucks and dollies available to make your job easier and more ergonomically friendly. We even have some of these items (such as hand trucks) available for purchase at our location in case you have an immediate need. Custom carts are also available! (See below). Give us a call or email us at sales@barroneq.com for more information.

Service & Installation

"Difficult jobs we do immediately, impossible jobs take a little longer."

At Barron Equipment & Overhead Doors, we pride ourselves on having top of the line Service Technicians who are experts when it comes to installing and repairing material handling equipment. Bottom line, if we sell you a product, our Service Technicians can install, service, and perform scheduled maintenance on that product.

We service any make and model of doors and openers and our service team is known for our quick installation and repairs, as well as our high quality work. We can perform service typically within 24 hours. Emergency service also available outside of office hours.*additional charges may apply

For more information about our service, visit our website at barroneq.com or email us at service@barroneq.com.

Barron Equipment was originally founded in Davenport, IA in December of 1979. Our second location in Des Moines, IA was founded in 1997.
