

99887 - Solid Top Pallet

REDUCES

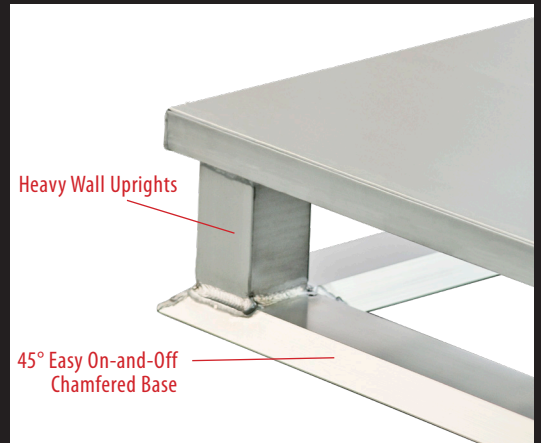

- ✓ Product Damage
- ✓ Maintenance Cost
- ✓ Shipping Cost

Increase your productivity...

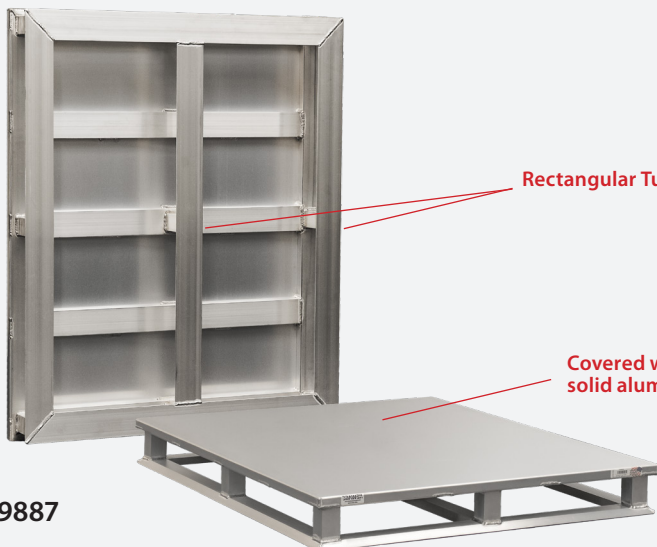

Ensure maximum durability while shipping, storing, and handling heavy objects with our Solid Top Aluminum Pallet. This pallet features all-welded aluminum construction with a solid top and skid bottom. Designed for easy loading and unloading of products while reducing wear and corrosion.

This pallet features 4-way entry with simple access points for effortless fork truck usage. Open design allows for easy cleaning and maintenance at any time. Smooth and sealed all welded construction prevents bacteria growth and allows for easy cleaning and maintenance.

Heavy Wall Uprights

45° Easy On-and-Off Chamfered Base

Rectangular Tubing

Covered with 1/8" solid aluminum sheet.

99887

Dimensions = 40¹/₄"W x 5³/₈"H x 48¹/₄"D

LOAD WEIGHTS:

STATIC	30,000 LBS.
DYNAMIC	5,000 LBS
RACKABLE	5,000 LBS
ALUMINUM WEIGHT	84 LBS.

Why Aluminum?

Longer life, lower maintenance.

New Age Aluminum Pallets are the perfect solution for your shipping, storage, and warehouse needs. Aluminum pallets will not rust, rot, warp, or burn; Giving you a better return on your investment.

Aluminum

- Can be stored indoors.
- 100% Metal Detectable.
- UV Resistant.
- Fire Resistant.
- Outlasts Wood and Plastic 10 to 1.
- Built to your exact needs.
- Recyclable.
- Hygienic.
- Repairable.

Wood

- Requires storage outdoors or in a separate facility per NEPA, 1 fire code.
- Invites insect infestation.
- Flammable.
- Requires harsh chemicals to sanitize.
- Splinter and break.
- Not suitable for food manufacturing.
- Requires frequent repair or replacement, on average every 5 trips.
- Absorbs moisture, odors and contaminates.

Plastic

- Requires storage outdoors or in a separate facility per NEPA, 1 fire code.
- Minimum Quantity = Hundreds.
- Additives weaken pallet.
- Flammable.
- Prone to chipping and contamination.
- Not suitable for transporting loads heavier than 1,500 lbs.
- Their sleek surface makes them slippery and less stable for stacking.
- Hard to repair.

High-quality pallets enable automated storage and retrieval systems to work at optimum levels of productivity. If you are working with high-quality pallets consistently, then all of that productivity flows right to your bottom line because you can keep these systems running as fast as they are designed to run without worrying about something getting jammed and stopping your production.

- ✓ **Lightweight, Durable Aluminum Construction:** All-welded rackable units.
- ✓ **Prevents Product Damage:** Companies can also reap significant cost savings by minimizing damaged and unsaleable products.
- ✓ **Heavy Duty Weight Capacity:** Safely transport heavy loads with a total weight capacity of 800 lbs.
- ✓ **Strong Product Guarantees:** Backed by a One-Year Guarantee on materials and workmanship and a Lifetime Guarantee against rust and corrosion to provide peace of mind for your investment.
