

# Aluminum Pallets

## What

Aluminum Pallets are the Most Durable Pallets on the Market. They are Ideal for Closed Loop Systems, Where Pallets Do Not Leave the Facility.

## Who

Used by Meat Processors, Food Manufacturers, Pharmaceutical Companies, and Other Organizations with a Closed Loop System.

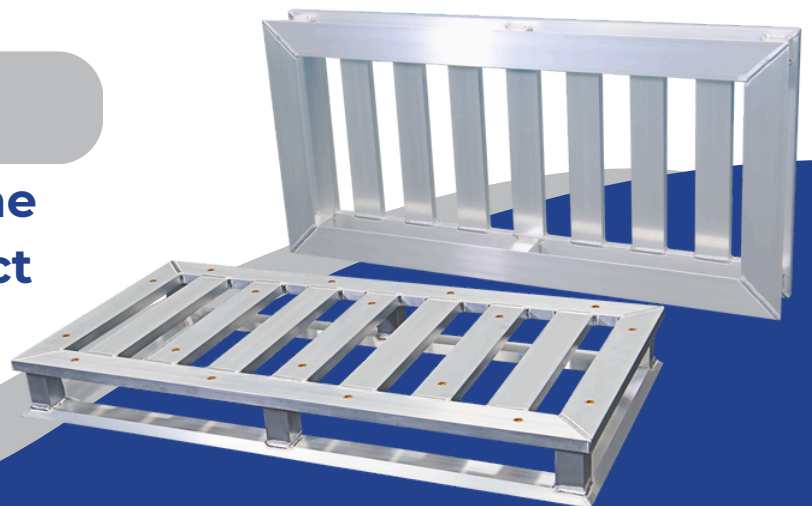

## How

Aluminum Pallets are used to move and store products off the floor and provide easy transport using a fork lift.

## Did You Know?

# WHY ALUMINUM?

## Pallets

### Wood Pallets

- Disposable
- Invites Insect Infestation
- Requires Heat & Harsh Chemicals to Sanitize
- Will Splinter & Break
- Not Acceptable for Food Manufacturing
- Requires Storage Outdoors or In Separate Facility per NFPA 1, Fire Code
  - Decreased Efficiency in Labor, Safety, and Productivity

### Aluminum Pallets

- **Fire Resistant**
- **Non-Sparking**
- **Recyclable**
- **UV Resistant**
- **100% Metal Detectable**
- **Much Longer Life Cycle than Wood & Plastic**
- **Can Be Stored Indoors**
- **No Additional Storage Costs Incurred**
- **Increased Productivity**
- **Improved Employee Safety**
- **Recyclable Value = \$25**
- **Fully Customizable**

### Plastic Pallets

- Requires Storage Outdoors or In Separate Facility per NFPA 1, Fire Code
  - Decreased Efficiency in Labor, Safety, and Productivity
- Slippery Surface Makes Them Less Stable for Stacking
- Not 100% Metal Detectable
- Prone to Chipping & Contamination
