Moisture-resistant ceiling fans

Outdoor Rated  
Plug & Play, White

Moisture Resistant,  
Forward/Reverse,  
Matte Black

Moisture Resistant,  
Forward/Reverse, White

GFY offers two styles of commercial and industrial grade ceiling fans. Our Moisture-Resistant fan is designed for damp locations with a certified GFI electrical branch. 60" diameter and available in white and matte black. The downrod is 18" (0.46m) long.

Our second ceiling fan style is an Outdoor Rated fan that is Plug & Play because it is connected to an electrical cord. 60" diameter, white only. The downrod is 24" (0.61m) long.

Ideally used in facilities with ceiling heights ranging from 10' to 30' (3m to 9m).

Both styles utilize a J-hook for installation and polymer blades.

## Ceiling Fan Controls

**117905**  
F/R, 5 Speed,  
controls up  
to 4 DC  
ceiling fans.

**103421**  
F/R, Variable  
Speed,  
controls up  
to 3 AC  
ceiling fans.
