

MOBILE VACUUM LIFTER with BATTERY OPERATION

Capacity Rating: 140 lbs. non-porous | 110 lbs. porous

- ① Articulating Jib Arm
- ② Pallet Base
- ③ Ergonomic Control Handle with Non-Slip Elements
- ④ Continuous 360° rotation
- ⑤ Rhino Tube™ Lift Tube
- ⑥ Elevated Power Unit
- ⑦ Filter Housing

SYSTEM COMPONENTS

- 1 – Mobile jib crane with pallet base (up to 12' span and 12' height)
- 1 – Lift Tube Assembly (5" diameter) comprised of reinforced yellow resin tube
- 1 - Heavy duty, stainless steel, in-line filtration system (10 micron)
- 1 – Power unit
- Applicable suction feet and controls suitable for lifting application

FEATURES

- Articulated boom design – reduced "whip" of the boom in high cycle applications
- No foundation required
- Stainless steel vacuum lifter
- Automatic balance control with or without load
- Bearing mounted top swivel supports entire load weight and allows for 360 rotation
- Made in USA
- Overnight parts available

BATTERY SPECIFICATIONS

- 48V lithium batteries configured to desired runtime
- 100% maintenance free
- Unique cell architecture for unsurpassed thermal runaway resistance
- Industrial strength puncture resistant all-steel housing
- Non-Toxic – no off-gassing or acids
- Fast charging capabilities

Battery Configuration	
Capacity	Run-Time*
14 kWh	3 hours
28 kWh	6 hours
35 kWh	8 hours

*Assumes 60% "under-load" and 40% "free-run" use
