

SKID STEER VACUUM LIFTER

Capacity Rating: 140 lbs. non-porous | 110 lbs. porous

- ① Hydraulically Power Vacuum Unit
- ② Articulating Jib Arm
- ③ Rhino Tube™ Lift Tube
- ④ Universal Skid Steer Attachment
- ⑤ Continuous 360° rotation
- ⑥ Ergonomic control handle with non-slip elements

SYSTEM COMPONENTS

- 1 – Universal skid steer attachment with articulating jib arm
- 1 – Lift Tube Assembly (5" diameter) comprised of reinforced yellow resin tube; 124" O.A.L standard
- 1 - Heavy duty, stainless steel, in-line filtration system (10 micron)
- 1 – Power unit
- Applicable suction feet and controls suitable for lifting application

FEATURES

- Stainless steel vacuum lifter
- Ergonomically designed control handle
- Automatic balance control with or without load
- Bearing mounted top swivel supports entire load weight and allows for 360 rotation
- Safety valve traps vacuum, preventing load from dropping in event of a power outage
- Made in USA
- Overnight parts available

POWER UNIT SPECIFICATIONS

- Hydraulically powered using skid steer auxiliary (hoses optional)
- Vacuum Pump – 2 stage compressor, fan cooled, 16-18 "Hg
- Operates at 74-75 dBA
